T.B. Red Pit Sand, of approved quality, constantly on sale, upon reasonable terms. In the erection of walls, where it is desirable that the work should be kept as free from damp as possible, this sand, from its not containing any saline matter, is seldom alledged to be preferable to river sand.

PATENT WHITE ZINC PAINT.—JOHN WARNER and SONS are prepared to supply this paint to builders, painters, and others, on wholesale terms. It is free from all poisonous qualities; it is unaffected by sea-water, sulphuretted hydrogen, or any of the causes that preserve its original colour where white lead paint will not.—Prospectuses to be had at J. Warner and Sons', 8, Crescent, Jewin-st., London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—ANNOUNCEMENT.

For MARINE USES, it possesses the following advantages:—It is whiter than any other Paint, and remains like whiteness for years unaffected by bilge-water, or sections exposed from copper. The White Paint in the hold of a ship, after discharging a sugar cargo, is found to be as white as the year before, when newly painted. Under these and other circumstances, where every other kind hitherto known and tried has failed, the "White Zinc Paint" has preserved the freshness of its colour. Moreover, by virtue of its galvanic action on iron, it enters the pores, and forms an amalgam of the two metals, which protects the iron from rust, decay, or incrustation.

For the GENERAL PURPOSES of the decorative painter, the "White Zinc Paint" has been found unparalleled in whiteness, clearness of colour, durability, and beauty of texture. It becomes so hard as to admit of polishing equal to the finest ivory panelling.

For SANITARY PURPOSES the "White Zinc Paint" is invaluable, not only from its being totally free from every ingredient injurious to health, but from its combining chemical qualities which render it a powerful corrective where contagious diseases have prevailed in furniture or building painted with it, or in any disinfected. Paralysis and Painters' Colic are avoided by its use, as well as similar results to the occupants of newly painted rooms. Apartments may be immediately occupied, without injury to the health of children or the most delicate constitutions. It becomes cheaper than common paint, from its spreading over a much larger surface. Four of this paint covers as much as 9 usually covered by 3 cwt. of white lead. Each cask is stamped with the name "Hubbuck—London.—Patent," as the style of the Manufacturers. A circular with full particulars may be had of the manufacturers, THOMAS HUBBUCK and SON, Colour Works, opposite the London Docks.

VIEILLE MONTAGNE ZINC MINING COMPANY'S PURE PATENT WHITE ZINC PAINT.—This Company having become Proprietors of all rights and patents of the late Patent White Zinc Company in France and Belgium is prepared to FURNISH, on a large scale, the WHITE OXIDE OF ZINC in a PURE STATE, and of a quality which can only be manufactured from the Zinc from their Mines in Belgium. The Paint White Zinc Paint is superior in every respect to white lead paint. It is entirely free from all poisonous influences and is unaffected by sea-water, sulphuretted hydrogen, or any of the causes, it preserves its original colour, which white lead paint does not. White zinc paint causes none of those ravages invariably engendered by white lead upon the human frame; neither Painters' Colic, nor Paralysis, &c. &c., to which dangerous complaints the workmen who manufacture and use it are subject, and to which persons who inhabit newly painted apartments are also liable. A specimen article having been introduced in the market under the name of White Zinc Paint, the Public is cautioned against it, because, when adulterated, it becomes a very inferior or pulsi, not and of a first rate one.—For further particulars and Prospectuses apply to Mr. H. F. SCHMOLL, general agent for England and Scotland, at the Company's Offices, 19, Manchester-buildings, Westminster-bridge, London.

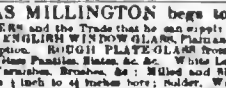
IMPROVED DRAINAGE BY ROYAL LETTERS PATENT.

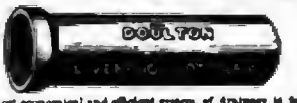


STANDING, FRANKLIN, & STANDING, Sole Patentees and Manufacturers of the PATENT GLAZED STONE WARE SEWAGE PIPE, Offices, 20, Cornhill, entrance in Change-alley; Factory, Brunton's Wharf, Commercial-road Limehouse.

By employing their patent machinery, S. F. and S. are enabled to produce a pipe for sewage and other purposes in every way far superior to those made by any other process, but more especially in those qualities so absolutely essential to a perfect and cleanly mode of drainage. From the great and uniform amount of pressure used peculiar construction of the machinery adhering the bar so compact, used in manufacturing, their pipes are entirely free from air bubbles, proving their greater strength, durability, and entirely preventing the contents permeating through; they are smooth somewhat on the inside, insuring a perfect passage for the sewage, and preventing any deposit.

Specimens may be seen at the offices, 20, Cornhill, where prices &c., may be obtained, and licenses granted for the use of the patent machine.

HOUSE DRAINAGE and SEWERAGE.



The most economical and efficient system of drainage is formed with DOULTON'S STONEWARE PIPES. Testimonials as to these are constantly being received from the Borough Engineers of Liverpool, Glasgow, and other cities.

Arrangements can be made for delivering them, free of charge, to many of the ports and railway stations throughout the kingdom.

JAMES STIFF, MANUFACTURER of GLAZED STONE WARE DRAIN PIPES, BENDS, JUNCTIONS, TRAPS, &c. at HIGH STREET, LAMBETH, LONDON. Established 1781.

Water Closet Pans, with Syphon Traps, 7s. 6d. each.

STRAIGHT TUBES, with Socket Joints, in 3 feet lengths.

N.B. These are made without the discharge-hole being turned downwards.

The great advantages attending the use of these articles are now so generally understood, as to render any recommendation of them almost superfluous. Their cheapness, efficiency, and durability, are universally admitted; while it is rapidly increasing demand for them proves their estimated superiority over every other kind hitherto before the public for similar purposes.

Inspection is invited to an assorted stock of Drain Tubes, of every form and size, adapted to the various situations for which they may be required; as also to the WATER-CLOSET PANS OF IMPROVED CONSTRUCTION, and interior glaze far surpassing any other manufactured of Brown Stone Ware.

May be had also at Messrs GLADDISH'S LIME WHARFS, Pedlar's Acre, Westminster-bridge; Chiswick Wharf, City Basin; Dock-head, Bermondsey; Dantzic Wharf, foot of Battersea-bridge, Chelsea; Pratt Wharf, King's-road, Camden New Town.

Drawings and List of Prices will be forwarded on application.
